Client: Mint Peptide Lab  
Accession #:   
Search Code:   
Received: 07/15/2026  
Reported: 07/17/2026  
Lot:

### Sample Summary

|             |                          |              |                                             |
|-------------|--------------------------|--------------|---------------------------------------------|
| Product:    | CP10 10mg                | Purity:      | 99.88%                                      |
| Identity:   | Confirmed                | Net Content: | Ipsamorelin – 5.08 mg<br>CIC-1295 – 4.97 mg |
| Appearance: | White Lyophilized Powder |              |                                             |

### Analytical Results

| Test             | Result                                      |
|------------------|---------------------------------------------|
| Identity (LC-MS) | Ipsamorelin/CIC-1295                        |
| Purity (HPLC-UV) | 99.88%                                      |
| Net Content      | Ipsamorelin – 5.08 mg<br>CIC-1295 – 4.97 mg |

Method: HPLC with UV detection coupled with mass spectrometry (LC-MS).

Proudly Owned and Operated in the USA

For peptide purity analysis we used HPLC with UV detection coupled with mass spectrometry (LC-MS) under standard laboratory conditions. This analysis is intended for informational purposes only and is specific to the sample provided. The peptides listed are intended for research use only and are not approved for human or veterinary use, diagnosis, treatment, or clinical application. Results should be interpreted by qualified professionals and for the scope of the intended analysis. The accuracy and reliability of the test may be influenced by sample integrity, handling, and other experimental variables.
